Dear St Michael’s College Community,

RESEARCH PROJECT

The 2016 Research Project results were released by the SACE Board on Wednesday morning. The Research Project is a compulsory 10-credit subject undertaken at Stage 2 (Year 12 at St Michael’s College). Students must achieve a C– grade or better to complete the subject successfully and gain their SACE.

"Students across the state choose a research question that is based on an area of interest to them. They explore and develop one or more capabilities in the context of their research. The Research Project enables students to explore an area of interest in depth, while developing skills to prepare them for the further education, training, and work. Students develop their ability to question sources of information, make effective decisions, evaluate their own progress, be innovative, and solve problems". (SACE Board).

The results achieved by our Year 12 students this year were once again outstanding. 228 St Michael’s College students were resulted in Semester 1, with all achieving at least the required C– grade. Much comment has been made regarding the Research Project since its introduction. With the majority of our students utilising it as part of the ATAR calculation, and with the very clear benefits into life after school, we have in recent years placed a very determined focus on maximising student success in the subject. Clear strategies were identified and implemented, with the outcomes since 2013 being not only obvious, but very pleasing.

Overall, students studying RPB (ATAR subject) achieved as follows in each grade band:

The Research Project, as with all Stage 2 subjects, can be quite demanding in nature and I thank the teachers for their dedication to their students through this time. I also acknowledge the commitment of the students to the Research Project and congratulate them on their successes. We continue to keep all Year 12 students and teachers in our prayers.

THE FEAST OF ST MARY OF THE CROSS (MACKILLOP)

This coming Monday is the Feast of St Mary of the Cross (Mackillop), Australia’s first Saint. As many of you are aware, one of our main parent meeting places at the College, the Mackillop Centre, is named in her honour.

Mary MacKillop was born in 1842 in (Fitzroy) Melbourne (Australia). On 8 August 1909 she died, having suffered a disabling stroke in 1902. Inspired by a meeting with Fr Julian Tenison-Woods, Mary MacKillop at the age of 25 took her vows and the religious name, “Mary of the Cross”. In doing so, she founded the congregation of the Sisters of St Joseph.

Soon after taking her religious vows, Mary MacKillop began schools. Within 5 years of taking her vows and founding the Congregation of the Sisters of Saint Joseph, Mary had established over 30 schools in South Australia and over 100 women had joined the Sisters of Saint Joseph.

Mary MacKillop was very conscious of the plight of the poor and needy. She worked with families that lived in isolated areas of Australia. As a result, Mary MacKillop pioneered a new form of religious life in Australia and commenced a “system” of “Josephite” schools that would provide education, especially for the children of the poor. In 1873, Pope Pius IX gave Papal approval for the Congregation of the Sisters of Saint Joseph. Even today, many Australians can say that they too have felt the impact of the enormous work started by St Mary of the Cross (MacKillop) having been educated or cared for by the Sisters of Saint Joseph. She was noted for her trust in the providence of God and miracles of healing have been attributed to her. She was declared a Saint by Pope Benedict XVI on 17 October 2010.

Live Jesus in our Hearts.

John Foley
Principal
Br Paul was a teacher for just over 40 years. Almost half of that time was spent here at St Michael’s, first at Beverley in 1973-1975, again at Beverley in 1991 and 1994 and finally at Henley Beach from 1995 until the end of 2009. For some years he taught Aboriginal children in Western Australia in three different places. As a result, Br Paul became a fierce supporter of the Aboriginal people, their rights and their needs. He also had some years teaching in Queensland as well as New South Wales.

Br Paul was a dedicated teacher. He paid special attention to those students who found school difficult either because of a struggle to learn or because of difficulties at home. Paul went out of his way to help these students, encouraging them when there were small successes and doing all he could to bring some joy into unhappy young lives. The slow learner, the “outcast” were his favourite students. He would stand up for them if he saw them belittled or disregarded by other teachers who regarded them as nuisances. He would be prepared to take the Principal to task if necessary to defend his special students.

With these students in mind, he improved his Educational Qualifications. Commencing in 1995, he obtained a Graduate Diploma in Religious Education, a Bachelor of Education both from the University of South Australia as well as a Bachelor of Education in Special Education and a Masters Degree in Special Education from Flinders University. All this was done while teaching here at Henley Beach.

Br Paul made good friends wherever he went. If you became a friend of Paul you were a friend for life. He was very loyal to his friends. He would mind animals, keep an eye on houses, water gardens, chop wood, go camping, help paint a house, organize a BBQ: nothing was ever a trouble and if it was, Paul would never tell you.

He enjoyed life and brought much joy into the lives of many people. He greeted everyone: shop assistants, bartenders, mechanics, council workers. Every weekend he visited a Southern Cross Nursing Home where he brought laughter into the lives of frail, elderly people. For a few, he was their only visitor.

People in authority be they Principals, Provincial or Leaders of the Brothers’ Communities could find Paul difficult at times. He was a ‘free Spirit’ not always in agreement with the ‘establishment’. He liked doing his ‘own thing’.

When the St Michael’s College community farewelled Br Paul at the end 2009, no one would have thought that he would have passed away in just over six months. Paul was transferred to New Zealand mid-January 2010 and toured the South Island on his motor bike for two weeks. During his travels, he began to feel unwell, but was determined to finish the tour. On arrival in Auckland he was taken to the local doctor who took some tests. Within 48 hours Br Paul was told to report to the Auckland Hospital. Tests had shown an advanced stage of leukemia. Chemotherapy was commenced in the hope of arresting its progress and in the remaining months Paul was a frequent visitor to hospitals. Br Paul’s body was broken but his spirit was as alive as ever.

Br Paul died peacefully on 5 August 2010 a few weeks after his 64th birthday. His instructions for his funeral were: “Make it short and, for God’s sake, don’t make me u out to be a saint because you know that I’m not!”

Those who knew Br Paul miss him very much but lives are richer because Paul was part of them. We thank God for the many gifts He gave Br Paul and for enabling Paul to use those gifts to bring much joy, hope, encouragement and love into so many lives.

SECONDARY CAMPUS

SECONDARY CAMPUS EARLY DISMISSAL ~ 12:45 pm 14 SEPTEMBER, 2016
Year 8 – 11 Parent/Teacher interviews are scheduled for Wednesday 14 September, 2016. Buses have been organised to accommodate the early dismissal at 12:45 pm

YEAR 8 HOMEWORK CLUB INITIATIVE FOR TERM 3
All Year 8 students are invited to attend Homework Club. Students can take the opportunity to access support from a team of teachers, representing various curriculum areas. Students are able to use the time to complete tasks with the assistance of a teacher should it be required, and they have full use of computers and other resources within the College. Students are free to attend at their own will, or can be referred by a teacher. This is a service that is offered with no additional costs to parents.

The Homework Club is held every Tuesday from 3:30 pm – 4:30 pm in room 2, and will run every Tuesday until the remainder of the term.

For further information, please contact Ms Rachel Philp, Assistant Director – Year 8.

SUBJECT SELECTION
At St Michael’s we pride ourselves on our subject selection procedures using our successful Year 12 results as a gauge of the rigour of the process. To ensure the best possible approach, students are provided with information from Heads of Departments in regard to the subjects on offer during specific assemblies. Individual counselling sessions are offered through Student Services to assist in determining appropriate subjects. Career Counsellors visit senior classrooms to personally deliver relevant material. Subject Handbooks pertaining to particular year levels, as well as tertiary information pertinent to the senior years, are distributed to parents via their daughters or sons. Pastoral Teachers are also important sources of information in this process. For our senior students, the process culminates with an individual parent/student interview with a counsellor to determine the validity of the proposed subjects.

We stress to students to choose their subjects wisely because once the line structures and number of classes are determined, based on original student preference, it may not be possible to change to another subject.

We also understand that mistakes can be made and preferences shift for a wide range of reasons. Thus we allow students the opportunity in the first two weeks of the school year to review and make changes where possible. This does cause a significant degree of disruption to our teachers’ learning programs and also disadvantages students as they enter a new subject having already missed a substantial amount of work.

We always endeavour to place students into the most appropriate course. However, there are practical matters that must be taken into consideration. Changes in Years 8-10 are often problematic and not necessarily in the best interests of the student. More often we are finding that students in the middle school seek changes that, unfortunately, are not made for sound educational reasons, such as wanting to be with their friends in a particular class.

Generally, unless there has been an administrative error, Year 8, 9 and 10 students will be expected to remain in the subjects of their original choice for the duration of the semester. This will allow teachers to begin each semester with a minimum of disruption which is necessary to ensure a quality learning environment and ultimately a successful outcome for all students. At times, Subject Teachers may use their professional judgment as to whether a particular student is able to cope with the demands of their course and recommend an alternative option.

Our senior students, namely Year 11 and 12 students undertaking the SACE, will still be able to make modifications at the beginning of the school year, and also mid-year for Year 11s, if they are concerned as to whether they will be successful in that particular subject or where their intended pathway has changed.

To conclude, I would like to reiterate the importance of careful planning and consultation in ensuring the most appropriate subjects are chosen in the first instance.

**LASALLIAN YOUTH MINISTRY**

On Wednesday 10 August the Year 12 students will be working with the Lasallian Youth Ministry team from Sydney, SMC Lasallian Youth Ministers and the SALT team to examine opportunities that exist post school life, in both a pastoral and spiritual sense.

They will also be exploring ways they can stay connected to the Lasallian community after school through participation in 'Share the Mission' and 'SALT', South Australian Lasallian Team.

On Thursday 11 August the Year 11 students will also work with the same team in a Retreat experience following the theme "SOS ... Service, Opportunity, Sacrifice". As the word "Retreat" implies, it is a time for students to reflect, learn more about themselves, and explore the 'big picture' in their lives, both in a pastoral and spiritual sense. They will also be challenged to reflect on how they can make a positive difference in their communities.

These days are a critical part of student development at the College and attendance and participation is compulsory. We look forward to student’s growth as individuals through the experiences on these days.

**STUDENT SPONSORSHIP - RECYCLING OF CANS AND BOTTLES**

Through the tremendous support of our students and staff at both the Henley and Beverley campuses we have managed to raise adequate funds to support various charities in our local district.

One of the Lasallian Mission Council’s Projects at Port Moresby is the La Salle Hohola Youth Development Centre. This centre was taken over by the De La Salle Brothers in 1996 and many of the students enrolled come from the local towns and villages. The students are able to attend for two years and are taught a range of vocational skills such as hospitality, motor mechanic skills and tourism. Over 50 percent of the students who attend this course find immediate employment.

The school, like many run by the Brothers, is very popular with a long waiting list. We have managed to sponsor a student for the next two years, supply breakfast to the student each day along with bus transport to and from the school.

The work of students and staff at SMC in being able to continue to support the recycling mission has to be commended and is very much supported by our fellow Lasallian Brothers and Sisters overseas.

*Mr Williams, Director of Pastoral Administration*
GIFTED AND TALENTED ~ VISUAL ARTS

As part of the Gifted and Talented program in the Visual Arts, we were fortunate in having guest speaker, Georgina Mills share her experiences as an art student studying sculpture in Florence. Her presentation showed students a large selection of her work and she described the exhaustive process of spending 10 hours per day, six days per week working on major pieces.

Her presentation also revealed to students the study opportunities that are available overseas and the inspiration she has experienced from living in another culture.

Mr MacDermot, Head of Department – Visual Arts

AURECON BRIDGE BUILDING COMPETITION

St Michael’s College has competed in the Aurecon Bridge Building Competition over many years and has seen hundreds of students build bridges. Of the hundreds tested in the many locations around the country, this is the first time our school has won the Innovation Award. What a huge achievement!

The Aurecon Bridge Building Competition is a National event that helps students bring their ideas to life by encouraging them to develop their understanding of Science, Technology, Engineering and Mathematics (STEM) by building a bridge using icy pole sticks, string, glue and cardboard.

The competition not only provides students with a bridge engineering challenge to solve, but also provides feedback from expert judges. The battle for prizes was played out in front of all participating schools with the spectacle of seeing their bridges load-tested to destruction.

Prior to the event and after receiving a design brief, the students formed two teams (Team Maroon: Ashleigh James, Rachel Symons, Holly Glasson and Team Blue: Vanessa Kassos, Victoria Alexandru, Kiara Elliot). The teams made a commitment to spend many of their lunchtimes during Term 2 working together to research, design and construct a bridge using supplied materials.

Bridge and structural engineering experts from Aurecon were appointed as judges to assess each bridge for workmanship, creativity, visual appeal and functionality. When our team took their bridge up to show the judges before the actual testing, the judges showed a keen interest in their design. One judge mentioned that in all his years of experience, he had never seen a bridge design like it!

The Chief Engineer from Aurecon Engineering declared that our bridge was the winner of the Innovation Award. This was, according to the panel of judges, the bridge that had the best construction and they were especially impressed with the bridge design elements.

Along with the recognition for our innovative design, each student won a $50 Coles Myer Gift Card and $500 for the College courtesy of Aurecon.

All of the students were thrilled with the winning result and had a fun time. This is evident in their reflection of the event, below.

What a fantastic effort from our Gifted and Talented students and we congratulate them on their remarkable achievement.

Mr Karnas, Gifted and Talented Coordinator

We all committed to spending our Wednesday and Friday lunchtimes to build a bridge using icy pole sticks, string, glue and cardboard as our building materials. Mr Karnas also generously gave up his time to guide us.

On the day of the competition, we arrived at the Radford Auditorium which is situated behind the Art Gallery of South Australia. With over 23 other teams competing, we quickly became nervous. When we presented our bridges to the panel of expert judges, we were asked to explain what inspired our bridge design, the process of making it and make a prediction of the weight our bridge would hold. Upon testing, our bridges were able to withstand 11kg before collapsing.
We won a number of prizes throughout the day by answering several quiz questions correctly, however the ultimate prize went to Team Maroon who won The Innovation Award.

Overall, the day was a good experience and while the journey was tough, it was definitely worth it in the end.

SUBJECT EXPO
On the last day of Term 2, our Year 11 students undertook the first important step in determining their subject choices for Year 12 (2017) when they attended St Michael’s Subject Expo. During the half day session, students were able to choose a number of faculties to visit, where they were presented with specific information regarding the range of subjects on offer.

Our Heads of Departments have developed power point presentations which outline subject content, assessment types and future pathways for their particular group of subjects. This information is available on the intranet under:

"Student Pages/Subject Selection Information/Stage 2
2017 Subject Expo"

We encourage parents and students to visit these pages so that the important decision-making process involved with selecting subjects becomes a valuable shared experience.

I look forward to meeting parents on Monday 8 August when we hold both the Careers Night and the Year 12 (2017) SACE Information Evening. Click here for a copy of the program The Subject Selection process will culminate on Tuesday 6 September with an individualised session where students’ subject choices will be ratified by a counsellor.

I take this opportunity to thank you for your commitment to your son’s or daughter’s education at St Michael’s.

STUDENT SERVICES

ST MICHAEL’S COLLEGE CAREERS NIGHT THIS COMING MONDAY 8 AUGUST
Founders Hall will be transformed into a one stop shop to get the answers to questions you may have about courses of study in SA and other career pathway information. Please see the flyer in this newsletter and put the date on your family calendar. Between 6:00pm-8:00pm families and students can approach representatives from various organisations to ask questions and seek inspiration. All the major Universities will have advisors, TAFESA will be represented also as well as the Defence Force, Police, Metro Fire Service, PEER and many more. We have this large scale Careers Night every two years.

UNIVERSITY & TAFE OPEN DAYS 12-14 August
The Universities and TAFESA will hold Open days at specific campuses during this time frame. There will be many displays, scheduled talks and tours. To make the most of these events it is important to check the individual Universities and TAFE OPEN DAY web links below (Upcoming Events & Deadlines) so you know when and where to be.

WORK EXPERIENCE
Last school holidays saw 35 students undertake a Work Placement. We are pleased to report all went well with some great reports.

Students who have Employer Assessments are reminded they need to bring this in for Mr Vizaniaris to check and add a copy to their student files for safe keeping. VET Students may have a Log Book that should be now updated and either shown to PEER if relevant, or if not a PEER student, they need to bring it in for Mr Woolford to sight.

Cert 3 Fitness students need to have their competencies signed off by their Host and then show their trainer as soon as possible.

Students interested in a placement with the Defence Force may have seen this in the Daily Notices:
Year 11 Australian Defence Force Work Experience: Upcoming work experience opportunities in SA include:
19-23 September, Army Familiarisation@ Woodside Barracks with 16th Air Land Regiment. Ref: WEP/0126/16 (for 20 students)
14-17 November, Air Force Familiarisation@ RAAF base Edinburgh: Ref: WEP/00078/16 (for 20 students)

All applications for these placements must be made online at the Defence Work Experience Program website:

See Mr Vizaniaris to discuss Work Experience requirements or if you have any questions.

Students wishing to undertake Work Placement in the next holiday period should make note that the final day to return paperwork is:
Week 7 Friday 9 September. It is assumed that students have already completed the necessary online checks and training in preparation, if not they should see Mr Vizaniaris as soon as possible.
